

Nature Ninja!

You are a superhero - your name is **Nature Ninja!** You love to be outdoors and are always most powerful when you're playing outside.

Task 1:

Having good aim is an asset to being a superhero! Find 3 different size containers; bowl, box, pail, bucket, basket, etc. and label them with 1, 2 & 3. Then put them in a line, with the container labelled 1 closest to you, then 2 & 3 furthest from you. Find a ball, rolled up sock, etc. to toss into the containers. Stand back & toss your ball into the containers. Add your scores each toss. The first one to exactly 10/20 (or higher if you choose) wins!

Task 2:

Ninja's must have good balance! Find some items that you can stack such as Legos, blocks, buttons, flat rocks, coins, etc. Use a deck of cards (up to 5 or 10), dice, or paper with numbers written on them. Flip or roll a number and try to stack that many items. Keep taking turns until one person's tower falls! Who was able to stack the highest? What strategies did you use to build the highest tower?

Task 3:

Superheroes love to race to practice their speed! You will need to make a number path to either 10 or 20 (or higher if you choose!). It can be on paper or you can make one outside with sidewalk chalk or a stick in the dirt. You will also need a deck of cards with the Kings, Queens and Jacks taken out. Draw a card from the deck. If the number is EVEN move ahead that many spaces. If the number is ODD, move back. The first person to land on 10/20 wins the race!!
