

Nature Ninja!

You are a superhero - your name is **Nature Ninja!** You love to be outdoors and are always most powerful when you're playing outside.

Task 1:

What do you look like as a Ninja Hero? Use as many different shapes as you can to draw a picture of yourself! The more shapes you use, the more powerful you become! What does your costume look like?

Task 2:

Go on a nature walk, and search for items such as pinecones, rocks/pebbles, sticks and leaves. When you are done, create a concrete graph with your items. What did you find the most of? Least?

Task 3:

Time to get out that sidewalk chalk! Draw a number line and label it from 0 to 20. You will also need a **partner** (sibling or parent) and a **deck of cards** with the Kings, Queens and Jacks removed. Both players start at 0. Draw a card from the deck and jump either forwards (black cards), or backwards (red cards) the number of spaces on the card. Aces will act as 1. The Winner is the player who lands **exactly** on 20 first! (lose a turn if a move puts you off the number line)
