

Nature Ninja!

You are a superhero - your name is Nature Ninja!
You love to be outdoors and are always most powerful when you're playing outside.

Task 1:

Outdoor Patterns - Use your keen Ninja eyes to search for items outdoors such as pebbles, leaves, and pinecones. Use the items you find to make patterns. Can you make an AB pattern? An ABC pattern? An AAB pattern? Nature Ninjas sometimes have to stay inside (if it is raining, etc.) But never fear - the same activity can be done indoors with household materials such as candy or macaroni.

Task 2:

Fruit/Vegetable Weigh In - Take out a variety of fruits and veggies that you have at your house, such as apples, oranges, bananas, grapes, carrots, cucumbers, tomatoes, or green peppers. Predict the order of the foods from lightest to heaviest. If you have a kitchen scale you can check using it, otherwise you'll need a second opinion from somebody else in your house to see if they agree with your weigh in.

Task 3:

Hopscotch - Grab that sidewalk chalk! Make a hopscotch and fill it in with numbers (counting by 1s, 2s, 5s, or 10s.) Throw a pebble, and practice counting from that point.

Use ctrl+click to practice using a balance scale in this fun game!
