

## Kindergarten Home Learning-April 27-May 1-try the following activities this week

Language Arts- Sammy Snake begins with the letter s. Check out this video on snakes.

<https://youtu.be/rMn9En-MNM8?t=6->

Tell someone 2 facts you learned about snakes. Write a sentence and/or draw a picture about the facts you shared. Remember when we write we sound out the words the best we can. Start your sentence with a capital letter, uses spaces between your words and a period to end your sentence. Read your sentence to someone.

Language Arts- Sammy Snake begins with the letter s. Can you think of 6 words that begin with the letter "s"? Draw a picture of each object and try and spell the words on your own. Remember only print the letter sounds you hear. If you only hear the beginning sound in sun as "s" and the ending sound as "n" then just print sn for the word.

Practice making the letter "s" in the sand or on a cookie sheet with salt or sugar. Watch Mrs. Poole's video on making sight words in sugar.

<http://nelsonrural.nbed.nb.ca/mrs-poole/video/fun-sight-words> Looks like fun!!!!

Math- Measurement Activity-Listen to the story "To Be Long", at Pearson Mathology, <https://schmedia.pearsoncanada.ca/mlb/index.html?code=KM1>

Have an adult measure you with a piece of yarn from your head to your toe. Use the yarn to find objects in your house that are longer, shorter and the same length as you. Have fun!!!

Math- Measurement Activity. The reticulated python is the longest snake in the world. It is 32 feet (10 meters) long. It is almost the length of a school bus. WOW! Go outside and measure your driveway. Is your driveway longer or shorter than this snake? If you were to use the string that is the length of you, how many of these strings would it take to be the length of this snake?

You and Your World- Every day we use our five senses. Our senses help us to become more aware of our surroundings. Listen and play the following activity on the five senses.

[https://www.abcya.com/games/five\\_senses](https://www.abcya.com/games/five_senses) . Listen to my read aloud called "The Five Senses", on my teacher page. <http://nelsonrural.nbed.nb.ca/mrs-sullivan-goguen/video/story-time-five-senses-keith-faulkner-illustrated-jonathan-lambert>

Make your own book or draw pictures about your 5 senses. Answer the following questions about your senses, draw a picture and/or write a sentence to go with your answers. I can smell. I love the smell of? I can taste. I love the taste of? I can see. I love the sight of? I can hear. I love the sound of? I can feel. I love the feel of?

Art-Some snakes have beautiful patterns on their skin. Design your own snake using materials you have at home. Create your own special pattern using, crayons, paint, chalk etc. Be sure to hang your snake up and send me a picture. Have fun!!

Keep up the great work Kinders!! Read or be read to each day. Practice your sight words and visit Dreambox math throughout the week. Play and explore outside each day!!

Check out Mrs. Dickson's & Mrs. O'Neill Delano's teacher pages for activities.
