Fortnite is a game about 100 players and 1 map you have to fight to the death and the last one living wins. But you can play with your friends. You can play duos, solos, and squads, but if battle royal isn't what you like you can play creative. With your friends on creative you can make music with music blocks or build things with the phone you get. You can also play zone wars, which is a game mode where the storm pushes you and you have to be the last one to survive. Another game mode is called box fight, where you fight in a box and always getting pressured by other players.
