

## **Math**

1. Practice multiplication by flipping two playing cards and creating a multiplication problem to solve, or by rolling two dice. Write the facts if you want, or just solve them in your head.
2. Graphing: Work on the “Pizza Pictograph” sheet (front and back). If you have time, try the Winter Clothes graph activity on the next page.
3. Choose one of the games in the back of your packet and play with someone at home.
4. Spend 20 minutes on Dreambox or Boom cards, or multiplication.com

## **Literacy**

- Read for 20 minutes...a book of your choice, or go onto Tumblebooks and listen to a story. (username: nlib password: nbschools)
- Find the sheet in your packet called “Paragraph Writing”. You will be writing about your favorite movie. Remember to have a topic sentence, 3 good supporting sentences and a conclusion. Be ready to share at our TEAMS meeting today.
- Choose one of the Reading comprehension passages in your packet. Read the short story and answer the questions.

## **STEM**

Listen to this book about icebergs:

<https://www.getepic.com/book/39030543/icebergs>

Try this ice experiment with ice!

<https://www.thechaosandthec clutter.com/archives/melting-ice-experiment>

I look forward to hearing your results.

## **Phys Ed/Wellness**

Try to get outside and get some exercise today. If you can't get outside, check out Ms Baldwin's page for some great workout ideas.
