

My Time Away from Nelson Rural Video/Audio Testimonial

Create a video either with editing and pictures or video of various people and activity, or just record audio, or just talk to your device (film yourself) explaining the following:

- This is an unusual year with a pandemic and having school closed. What were the biggest negatives and positives you experienced after school closed and you were home for your last term at Nelson Rural?
- What did you learn about yourself, or what new skills/hobbies did you get in involved with?
- Who supported you the most through these past few months?
- What do you miss most about being actually at school?

Again, you can shoot this as a video, make a video (edit) or just record audio.

Can't wait to see them by the end of the week. Post it on teams, or try to email it. Teams may work the best.
